

**Reference:** LFR-039

**Name:** NIRS ANALYZER

**Year:** .

**Brand:** NIRS

**Width:** .

**Description:** NIRS SmartProbe analyzer enables fast, non-destructive analysis of solid and liquid substances and formulations. With the NIRS XDS SmartProbe analyzer, the identity and quality of a substance can be determined directly in the respective original shipping containers, whether they are bottles, bags or other containers.

Using the NIRS SmartProbe Analyzer couldn't be easier. The measurement is taken by holding the probe in the sample and pressing the measure button. Pass/Fail results can be read on the handle immediately after measurement.
